[Note: Recommended Browser - Internet Explorer 7+, Firefox 3+, Safari 3.2.3+, Chrome – any version with Flash support, Netscape 9.0+]  

1. **Keyword Search**

1. Click on the “Composers” or “Artists” to view a list and browse through the titles by clicking the A-Z.
2. Click on “Recent Additions” or “Featured Additions” to bring up that CD. The system will automatically begin to play from the first track of the CD.

2. **Advanced Search**

1. Type the keywords in the search field, e.g. composer, genre & music categories, instrument, etc.
2. Click Search or Search Now
3. Browse and select recommended criteria
3. Search Result and Playing a CD

1. Click the title of a CD to play. A new window containing the track list, CD cover and control buttons will appear.

2. Click the box to select the tracks or click Select All to play from the first track.

3. Click on the Composer’s name, a new window displays composer’s biography and general information about his/her works (This feature is only available at Naxos Music Library).

4. Click Play Selections to begin playing the selected tracks.

5. Use the Media Player to play, pause, forward or backward tracks.

6. Click on Work Details to find other available performances of a work. For most major compositions, further information can be found about the work here.

*Mobile access to Naxos Music Library is also available at Android & iOS devices, please read instructions at http://www.ied.naxosmusiclibrary.com/help/mobileaccess/mobileaccess.asp
